Introduction

Greetings *Manhunter*. Are those Orbs getting you down? Are you lost in New York with no place to go? Cheer up! With this handy little book you'll be covering new ground in no time - but first, some background.

As you make your way through *Manhunter: New York*, you will learn what the evil orbs are up to, discover secrets of the underground human movement and find yourself on the trail of a deadly killer. To make progress in *Manhunter*, you will do, use, or find things at various locations. Sometimes the solution is obvious - you would naturally use a crowbar to open a stuck window. Other solutions have clues in other parts of the city. Keep your eyes open. Search each location by moving your marker over every object that you see. If you get stumped, travel to the other locations in the city. The clue you need may be across town.

There is no score in *Manhunter*. If you make it to the end of the game, you've won. This hint book will get you through to the end. If you have a problem that isn't covered here, feel free to contact Sierra's 24-Hour hint line at (209) 683-6858.

How to use a hint book

If you reach a point where you can't go any further, look through this book and find the day that you are in and your location. Use your Adventure Window card by placing the red window over the patterned area to read your desired answer. Hints progress from mildly helpful to a direct answer. It's best to read them individually, and in sequence. Be sure to read only those hints you really need.

How not to use this hint book

The Orbs will not like it if you just scan through the book reading all the answers! You will lose a lot of enjoyment (and sleepless nights) in discovering the game. Read only those hints which are absolutely necessary, and as few of those as you can.

If you have finished *Manhunter*

After you have "won" the game, we invite you to check out the back of this book. It contains more interesting information. But be very cautious using this section! Don't even look at it until you have actually seen the end of *Manhunter*.

Thank you for purchasing *Manhunter* and this book. If you like this kind of game, let us know. Remember, the Orbs are watching you!

The video game maze that you saw back at the Flatbush Bar is the map to the sewer maze! You start in the same spot as the man in the maze game starts. Before you find your way to the end, go to each area in the maze where there is a magic square. At each magic square location you will find a keycard. You should have 12 keycards when you get to the end of the maze.

What is that shiny thing on the dock?

Position the marker over the shiny thing on the dock. When it becomes a magnifying glass, press ◀ENTER▶.

It is called a medallion. Position the marker over it and press ◀ENTER▶ to take it.

Look out the cave by positioning the marker over the cave and pressing ◀ENTER▶.

What you see in the distance is your clue as to where you should go next.

The ferris wheel that you see in the distance is at Coney Island. Travel to Coney Island.

There is only one place you can go here. Can you find it?

Position your marker over the bombs on the left. When the marker changes, press ◀ENTER▶.

There is definitely something you should do here!

Don't those kewpie dolls look familiar?

Remember the instructions to the video game in the bar, "the correct path leads you to the kewpie dolls."

When you take the shortest path to the end of the maze in the video game, you will pass over three magic squares that will trigger three balls to be thrown that will knock over three kewpie dolls. Knock over the same three kewpie dolls in the same order.

Knock over the third doll on the top shelf. Then the second doll on the second shelf and finally the fourth doll on the bottom shelf.

Show him what he wants to see!

If you show him the medallion, he will know that you are on his side and give you a data card.

Day 2

I've watched the tracker for day two, what now?

There's nothing in the tracker that suggests what to do next.

Grand Central Terminal

Here I am at Grand Central, what do I do?

Grand Central is a busy place. I should look for a place to hide. I should look for a place to hide.

The Grand Central is a busy place. I should look for a place to hide. I should look for a place to hide.

Wretched Excess

I'm trying to get inside but the blue dude won't let me!

Travel to the first place your target was at (Grand Central).

Position your marker over the activity at the lower left of the screen and press ◀ENTER▶.

Check out the activity and then travel to the next place your target went (the Wretched Excess in Greenwich Village).

First, position your marker over the blue dude to get his name. Open MAD (press C), select info and type in Louis Redman. Select Exit and then press C to close MAD.

You will have to find another way to get inside.

Position your marker over the alley and press ◀ENTER▶.

Go forward but be alert; danger is near.

Watch his arm closely. Whenever he lowers it, jump up. Whenever he raises it, duck down. When you go forward, save your game so that if you do get killed, you don't have to start from the beginning.

You need to tap the shoulder of the target you have been following. Be careful though, the rest of the audience came for the music and won't appreciate it if you bother them!

Which one is the target you are tracking? Think about it for a minute and if you can't figure it out, I'll tell you.

The members of the audience at the Wretched Excess are wearing their designer robes. The target you are looking for just ran in here off the streets to hide after breaking into Grand Central Terminal. If you still can't figure it out, look at the next answer and we will spell it out for you!

The target is wearing the brown robe. Get ready to grab the keycard that she drops!

You should have 13 keycards now. If you only have 12, go back inside and get the last one.

If you have 13 keycards, open MAD. Select Tracker. Tag the second target by positioning your marker over the middle target and press ◀ENTER▶.

Vend-n-Deli

What do I do at the deli?

I need a sandwich, a salad, and a drink. I'll go to the deli counter.

I'll get a ham and cheese sandwich, a tomato salad, and a glass of milk.

Central Park

I keep dying at the park, what gives?

I'm exhausted, I've been running for hours.

I've been running for hours, I'm tired and my legs are sore. I need to rest.

I've been running for hours, I'm tired and my legs are sore. I need to rest.

Go inside and look at the bulletin boards. Which note did your target leave?

You don't have enough clues yet to determine which note he left, but you will soon. Travel to Central Park.

There is only one safe path through the park.

Look at the tracker and outline their path on the map of Central Park that was enclosed with the game. Put an X at every spot that they stop at. Close the computer and use your map to find your way through the park.

If you still can't find your way through the park, use your Adventure Window card to locate the correct path. Be sure to take the crowbar when you find it.

Position the marker over his forehead.

Back up.

Position the marker over the staff on the ground next to the body and press ◀ENTER▶.

Notice the name on the handkerchief (H. Osborne). Also notice the name Anna.

Back up.

Notice the word the corpse tried to write on the rock.

What he tried to write on the rock is the last name of his murderer?

What do you think is his first name?

The answer is on the data card. Select Data Card from Inventory.

Still stumped? I would say that the murderer is trouble.

Phil is trouble.

So Phil is the murderer's first name and his last name is Cook something.

We give you another clue to the murderer's last name right after you look at the sign at Strawberry Fields. Go back and look again.

Don't get your goose "cooked"... The last name of the murderer is Cook...k! Phil Cook! Open MAD, select Info and type in Phil Cook. Then travel back to the Deli.

Go to the bulletin board that the suspect went to. If you forgot, use the tracker to replay that scene.

It was the bulletin board nearest the back wall. Go there and find the note that H. Osborne left.

It is the only note that is signed by a name starting with an H. (Harvey).

The dead man in the park is Harvey Osborne! Open MAD, select Info and type in Harvey Osborne. Select Repeat and type in Anna Osborne. Anna Osborne is Harvey's wife and the target you tracked on day 1.

She is the one that set the bomb at the hospital to see what was going on inside. Then she hid something at Trinity Church. She went to the Flatbush bar to copy the maze. At the ladies room at Prospect Park, she used the three-flush code to get to the sewers and dropped the medallion on the dock before leaving in her boat. The next night, Anna, her husband Harvey and someone else broke into Grand Central to steal a maintenance robot. Then they split up and Anna went to the Wretched Excess to hide. That is when she knocked you out. Then she returned home (W. 82nd).

I am at the museum but how do I get in?

But the back doors are locked!

I'm inside but which way do I go?

American Museum of Natural History

Meanwhile, Harvey went to Vend-a-Deli to put a note on the bulletin board. Here he met up with Phil who he thought was a friend. Phil lured him into Central Park, where he murdered him. And you still haven't found the stolen robot!

Open MAD and select Tracker. At Grand Central, tag the third target.

When the third target gets to the American Museum of Natural History, trace his path on the diagram of the museum that is on the map that was enclosed with the game. Travel to Harvey and Anna's apartment on W. 82nd.

Yes! Go inside and position the marker over the sack on the floor. Take the key and then back up.

Press the button on the back wall by the door.

Position the marker over the body and press ◀ENTER▶. It looks like Phil got here before you!

Travel to the museum.

Position the marker over the right side of the building. When it becomes an arrow pointing to the right, press ◀ENTER▶.

Usually you use a key to open a lock.

Select the key from Inventory (the one you got at the Osborne's apartment). Position the marker over the open door and press ◀ENTER▶ to enter.

Follow the path that the target in the Tracker took. You should have drawn it on the diagram of the museum that is on the map that was enclosed with the game.

Or you can follow the arrows.

Summary

You must have something you could use to move that heavy crossbar.

Maybe something you found in the park?

Select Crowbar from Inventory.

The creature thinks you are working for the orbs.

Maybe you could show him something that would make him think you are friendly.

Show the creature the Medallion.

Go forward until you get to the end.

You'd better look around before you go!

Look at the diagram on the blackboard.

Look at the dead man's arm.

Take the module and draw a picture of the tattoo on his upper arm.

Select Travel.

Anna, Harvey and the dead man at the museum were the three targets that broke into Grand Central Terminal. They wanted to see what the orbs were hiding in there and why it was off limits. They also wanted to steal a maintenance robot to get the module that was inside it. Then, the dead man in the museum took the robot to a secret room at the end of the museum. Just as you caught up with him, he was taking the robot apart to get to the module and it blew up.

The clues are on the tombstone that is at the end of the grave that the orb is planted on.

The clues are Tim Jones and that he is survived by his father. Tim Jones is not in info because he is deceased. Reno Davis was in info because the orbs didn't want you to know that Reno is deceased. Travel to Trinity Church.

Go to the same candles that Anna went to on day 1.

Go to the candles on the left side.

You have seen the clue for the candles, use it!

Remember the tattoo on the dead man in the museum?

Light the three candles that are indicated by the tattoo (the first candle on the top shelf, the third candle on the middle shelf, the fourth candle on the bottom shelf).

Take the module.

Notice the three symbols on the door to the secret compartment. (Cross on the front, star, and the horizontal lines with one vertical on the inside.) Travel to the theater in Times Square.

Before you go inside, did you notice the poster on the wall? Position the marker over the poster and press <ENTER>. Then press <ENTER> again to back up.

Position the marker over the front door to the theater and press <ENTER>.

What if I try the combination 1-2-3-14? Will it work?

Theater in Times Square

Here I am at the theater again. What should I do?

What if I try the combination 1-2-3-15? Will it work?

Look at these numbers 1234567890 and then look at the picture again.

Look at the arrows. The first arrow points to the left of the three, the last arrow points to the right of the three. What is to the left and what is to the right of a three? (2 and 4.)

The math is in the middle. $3 + 3 = 6$

The answer is 264.

There are three numbers in this combination.

The answer is in the vase.

Look at the dead twigs.

Count the branches on the dead twigs.

The answer is 425.

Of course!

Notice the P on his forehead. Looks like Phil has been here just ahead of you.

Don't back up until you know the corpse's first name.

Look at his lapel.

His name is Harry.

Go to the only place you can go, around the corner.

Watch his knife hand. When he drops it, jump. When he raises it, duck. When he moves to a neutral position, punch. A defensive move will override an offensive move so if Phil moves his knife hand after you start a punch, select the appropriate defensive move (jump or duck). Be patient and you will soon defeat him!

Pick up the note he dropped.

Can you think of somewhere you might be able to use this number?

That's right, click the opening in the ceiling above the ladder and then travel to the theater in Times Square.

If you forgot the number on the note, open MAD, select Info and type NOTES. Write down or remember that number and close MAD.

Alpha, Beta, Gamma and Delta are the code words for the four orb strongholds in the city. You can get information on these sites by clicking the appropriate boxes. Try to figure out the location of the four sites and to make changes that will help your quest.

Alpha is Bellevue Hospital. This is where the orbs are converting humans into a food source! Assign the guard robot hall security.

Beta is Grand Central Terminal. This is where the orbs are hiding and repairing their spaceship fleet including the Mothership. Remember Harvey's note that he wrote after breaking into Grand Central? "We saw the mother..."

Gamma is the Statue of Liberty. This is where the orbs are generating the red gas that colors the sky, makes it easier for the orbs to breath and makes humans sluggish and easier for the orbs to control. Assign the guard robot to Ground Patrol.

Delta is the Empire State Building. It houses the Orb Alliance's Main Computer.

Select Quit until you back away from the computer and are standing in the office. Then save your game!

What do I do with this Signal Tracking System?

I've watched myself use Phil's computer and then saw myself go home. I don't want to be transferred to Chicago (and end up like Reno Davis!). I need to do something quick. Help!

Harry's Apartment

I am at Harry's apartment but haven't found anything useful.

Bellevue Hospital

Where do I go at the hospital?

Now I am stuck in a room with a big pile of bones! How do I get out of here?

Select Travel

Press Repeat. A signal will enter the screen from the port at the bottom of the screen. Position your marker over that signal and press ◀ENTER▶ to tag it. If you lose sight of it, press Repeat and try again.

Remember the dead man under Abdul's Pawn Shop? Did you figure out his name yet?

You found his first name on his lapel (Harry). What is his last name?

Remember the dead orb at Greenwood Cemetery? That orb was killed by Harry after the orb killed Harry's son. In defiance, Harry placed the orb shish-ke-bob on his son's grave. Then he went to his office at the theater in Times Square and put the secret code to Phil's computer in his wall safe. Later, he met up with Phil who led him to the pawn shop. Under the pawn shop, Phil murdered Harry to get the combination to his safe. It was right after that occurred that you caught up with Phil.

The name of the son is Tim Jones. The name of the father is Harry Jones. Open MAD, select Info and type Harry Jones.

Travel to Harry's apartment. It is at the south tip of Manhattan Island.

The diagram on the blackboard at the end of the museum was a map of Harry's apartment and indicated where something useful is.

There is something useful at the radio!

Maybe there is something inside the radio.

When you are looking at the radio, use the crowbar.

Take the module. Then travel to Bellevue Hospital.

Go inside the same way you did before. If you used Phil's computer properly, the robot guard should be gone! Go through the doorway that the robot is no longer standing in.

Position the marker over the air vent above the bone pile and press ◀ENTER▶.

How do I get rid of this screen?

Yes, you have to turn it off in time.

Yes, you have to turn it off in time.

You will need to pry it out of there.

Select the crowbar from Inventory.

Wait until the guard robot leaves. If he doesn't leave with the orb, you didn't program him correctly in Phil's computer.

After the guard robot leaves, position the marker over the control panel and press ◀ENTER▶.

Take the module!

Position the marker over the red handle and move it up or down to get the hell moving. Then position the marker over the top of the ladder until it turns into an up arrow, press ◀ENTER▶.

If you moved the handle the wrong way, you will get another chance to move it the other direction.

There are no tricks here, you just need to avoid the jolts of electricity and try to find your way to the window. Save your game often and then when you die you can restore your game instead of starting over.

Travel to Grand Central Terminal.

Go to the vent that was damaged earlier.

The repairs are complete. How are you going to get through here?

Maybe you should try to pry the vent back again.

Select the crowbar from inventory.

Position the marker over the ship and press ◀ENTER▶ to go inside it.

The ship needs four things before you can turn it on.

Select the four modules from inventory.

After the modules are in, find the power button and press it (just to the left of the view screen).

This would be a good place to save a game.

Several buttons are active now. Try pressing some of them.

You need to close the hatch first thing. Press the hatch button. It is the middle one at the bottom.

You need to open the exit door on the right wall before you take off. If you have taken off without opening the exit door first, land the ship on the pad that it took off from. Then you will have the opportunity to open the exit door.

Make sure that the four bombs are armed. They are just right of the view screen. If they are not lit up, press the switch at the base of the four lights.

If the viewscreen is not on, press the button below it.

When the view screen is on, position the marker over the screen and press ◀ENTER▶ for a closeup.

You have four bombs and there are four targets for you to bomb.

The four targets are the four orb strongholds that you learned about when you used Phil's computer.

Your four targets are:

1. Alpha: Bellevue Hospital. The orbs are using the hospital to experiment on using humans as a food source and most of the orbs are concentrated here.
2. Beta: Grand Central Terminal. The orb fleet of spaceships are stored here, including the mother ship. (Remember Harvey's note in the deli, "We saw the mother...")
3. Gamma: Statue of Liberty. This is where the orbs make the red gas that they pollute the atmosphere with. (Remember the data card message, "Destroy the Lady...")
4. Delta: the Empire State Building. The Orb Alliance's Main Computer is located here.

If you don't know where the Statue of Liberty, the Empire State Building, Grand Central Station or Bellevue Hospital is, you can find them on the map that was enclosed with the game.

After you bomb the four sites, you have smashed the orb presence in the city and made it safe once again for humankind!

Did you die at Bellevue Hospital after looking at the face of the cadaver? If not, look at the face and don't back up.

Did you die at Abdul's Pawn Shop? If not, select a wrong badge from Abdul.

Did you die at the hands of the creature in the museum? If not, just don't show the creature the medallion.

Did you die at the Flatbush Bar? If not, throw a knife and hit the bartender on the finger.

Did you get thrown out at the Flatbush Bar? If not, throw a knife outside of the bartender's land area.

When using Phil's computer, set the Gamma Security to Air Security. Then try to bomb the Statue of Liberty.

When using Phil's computer, did you select internal security and watch yourself get zapped?

You have four bombs.

There are four red springboards that you need to reach. These are the four sites that were in Phil's computer:

1. Alpha: Bellevue Hospital. The orks are using the hospital to experiment on infant humans as a food source and most of the orks are concentrated here.

2. Beta: Grand Central Terminal. The orn fleet of spaceships are stored here, including the outer ship. (Remember Harvey's note in the deli, "We saw the mother...")

3. Gamma: Statue of Liberty. This is where the orn make the red gas that they pollute the atmosphere with. (Remember the data card message: "Destroy the Lady...")

4. Delta: The Empire State building. The Orn Alliance's Main Computer is located here. Avoid Phil's ship while you bomb the four sites.

After you hit the fourth one, you are done, watch the ending.

One more thing you can try is to destroy your game in Phil's office. Select Gamma Security and change from Ground Patrol to Air Defense. Now try to bomb the Statue of Liberty.
